

MADNESS AND LIBERATION

A Community Dialogue on Alternative Views of “Mental Illness”

How do we make sense of being labeled crazy in a crazy world? What does it mean to be “mentally ill?” When and why does behavior become “dysfunctional?” How can we truly support each other? Please join Ashley and Sascha of **the Icarus Project** community, and speakers from **Freedom Center**, a local advocacy and activist group, for a discussion on how the experiences behind Bipolar, Schizophrenia, Borderline and other “severe mental illnesses” diagnoses relate to our visions of social liberation and true freedom.

Wednesday, Oct. 6, 7:30 pm
Main Lecture Hall, Hampshire College

Free and open to the public; wheelchair accessible.

For information, contact **Icarus Project**, www.theicarusproject.net, or
