Speak Out Against Abuse in the Local System  
Join us!

Former psychiatric patients, current and former clients, and our supporters will be pushing a rolling hospital bed across town from Cooley Dickinson Hospital to First Churches to protest abusive treatment and to search for better treatments. Some people do get good care in the local system, but too many people are mistreated daily.

We will have a Speak Out of first person testimony at First Churches on Main Street. For more information contact Freedom Center 877-677-6424; [info@freedom-center.org](mailto:info@freedom-center.org)
